# INTRODUCTION

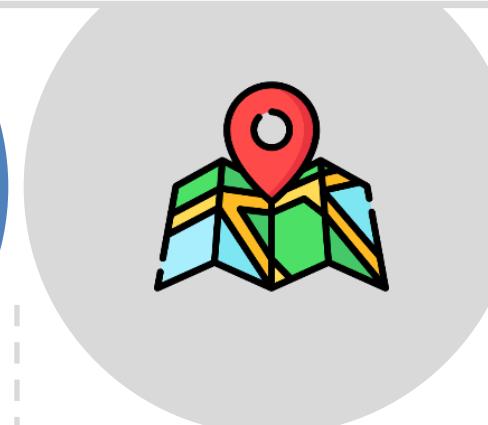

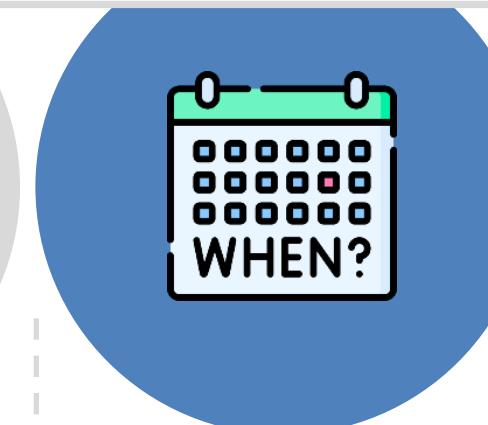

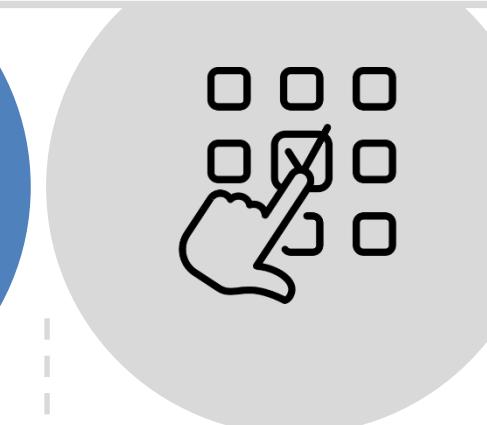

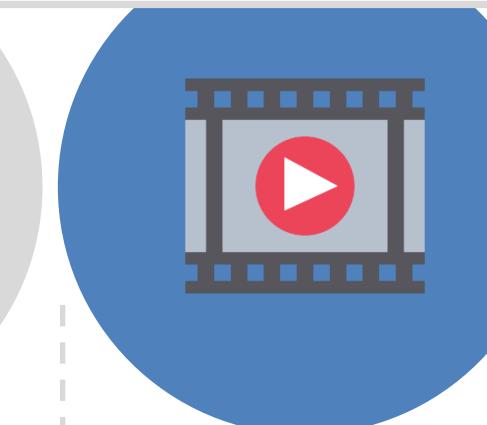

---

At CuraSpik, we bridge cultural divides by exploring the **synergy between ancient heritage and modern science**. We empower students to discover Korea's essence through a unique curriculum that blends **traditional wisdom with future-forward innovation**.

# CuraSpik's Program

This summer,  
CuraSpik invites you on a special journey!

Explore Korean traditions and culture with our "Blossom Together with Science" program.

For Whom	Where	When	Period	Additional Option
				
We offer programs for Korean American students from K- 5th grade.	In SEOUL, where the rich traditions and vibrant culture of Korea come alive.	Program Schedule 6/29 ~ 8/7	You can apply based on available dates: - Bi-Weekly - Weekly - Single Day	- Private Video - Lunch - Traditional Science Kits - Personalized Keepsakes - Private Tutoring (Additional fees apply)

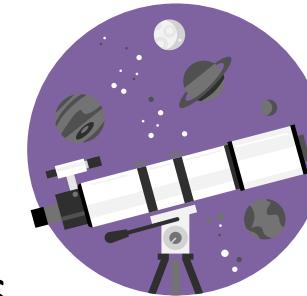

# Uniqueness

Discover the Fusion of **Science & Culture**

## The Fusion of Science & Culture

Experience the synergy of 5,000 years of Korean heritage and modern innovation through our unique **science-culture fusion curriculum**. Students will explore the engineering and physics behind Korea's timeless spirit.

## Key Activity

Over 20 diverse activities including Field trip to science museum, Folk Play Festival, and Korean Traditional Sound, K-pop dance.

## Safety First

Prioritizing student safety in a nurturing environment.

# Check Point

CURA makes every effort to ensure  
the **safety of children** and provide **peace of mind for parents**.

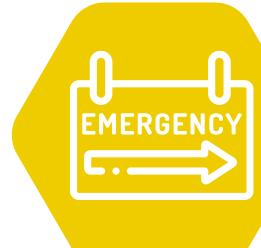

## Safety

Prioritize the safety of the children and HOSTs are trained in CURA's specialized educational methods.

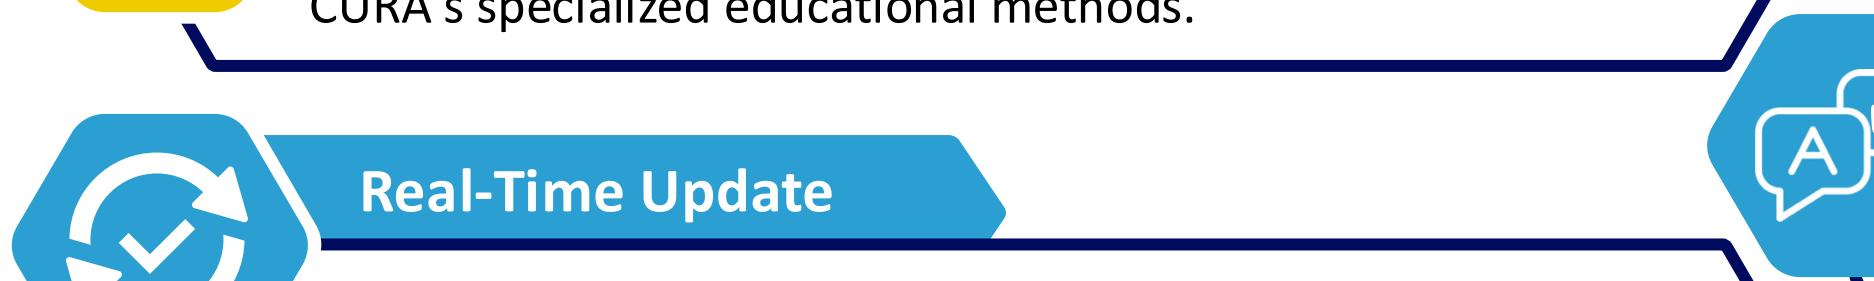

## Real-Time Update

During each activity, we provide real-time updates with photos and videos to share the progress.

## Emergency

Emergencies, immediate treatment at affiliated hospitals  
We provide 24H contact through a dedicated channel.

## English and Korean

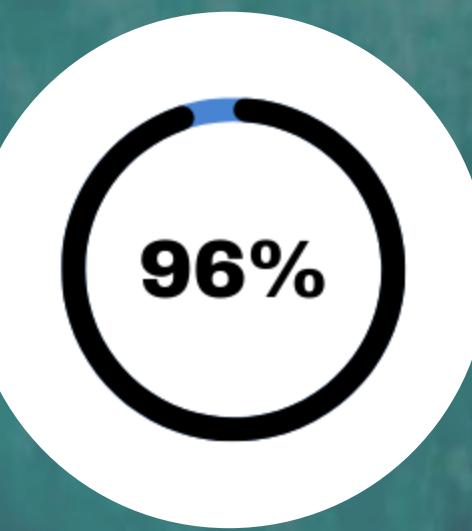

All activities are offered in both English and Korean, ensuring that children who do not speak Korean can understand and participate.

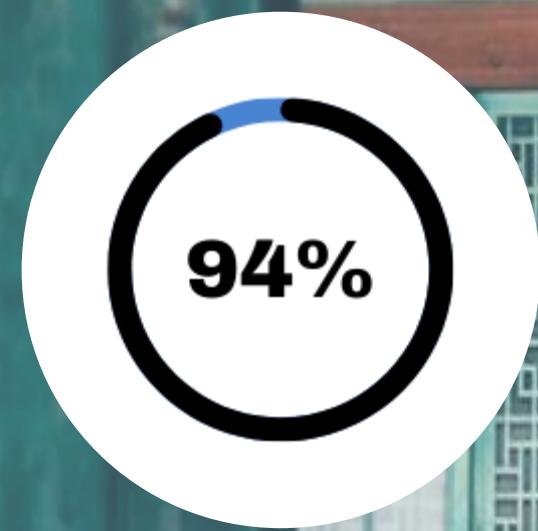

## Traveler's Insurance

Traveler's insurance is included.  
Please let us know if you are already insured.

**Sofia Eunhee Sim**

★★★★★

Cura Camp was awesome! I loved learning Korean through games and fun lessons. We even got to make Korean snacks, which was my favorite part. Korea is way cooler than I thought, and this camp made everything super fun and easy to understand.

**Jayden Kim**

★★★★★

This summer at Cura Camp was the best! I loved how we got to see so many places in Seoul, like the palaces and the big markets. The teachers were really nice and made learning Korean fun

# KEY Activity

**Immerse in the Wisdom of the Past** Discover the sophisticated engineering and scientific heritage of the Korea

**Time to Feel the Tradition and Engineering Wisdom**  
Uncover the **engineering wisdom** and mathematical harmony in Korea's iconic monuments.

**Lego Challenge**  
Discover the **center of gravity** and structural stability by modeling historic stone pagodas to find the perfect mathematical balance.

# Engineering & Structure

## SCHEDULE

- 01.STEM Activity
- 02.Earthquake Education
- 03.Gyeongbokgung Modeling
- 04.National Museum Field Trip

(Actual plan could be vary due to weather condition)

### National Museum Field Trip

Analyze the **load distribution** and architectural engineering of ancient arches and palace structures through professional on-site exploration..

# KEY Activity

Investigate the biological mysteries of Korea's representative fermented foods. Use high-powered microscopes to observe the life cycle of beneficial microbes during the fermentation process

# Traditional wisdom

**Unlocking Biological Wonders.** Students explore the invisible world of microbes and the scientific ingenuity

**Traditional Culinary :**  
Use high-powered microscopes to observe the life cycle of beneficial microbes during the fermentation process

## Hanji Craft & Material Science

Investigate the unique fiber structure of Hanji that provides exceptional thermal insulation and durability.

## CURRICULUM

1. Culinary Micro-Lab
2. Natural Bio-Soap Workshop
3. Molecular Gastronomy Class
4. Taekwondo Biomechanics
